Household contents insurance – premium depends on the insured amount (deductible € 150)

Covers your personal household belongings that are damaged or stolen from you home. Burglary is occurring more often, and it is better to be safe than sorry by holding insurance.

Furthermore, as the tenant you are responsible for the replacement of glass in doors and windows in case of breakage. Your household policy automatically covers this risk. The approximate premium depends on the amount that you insure **for example:**

€ 25.000 monthly premium € 9 (single person)

€ 35.000 monthly premium € 12 (married couple)

€ 50.000 monthly premium € 16 (married with children)

(Premiums are dependent on the postal code. These are only guidelines as you need to make sure that you ensure the actual value to avoid underinsurance in case of a claim that results in a partial reimbursement)
